

CENTRE FOR UNUSUAL COLLABORATIONS

A centre for expertise on collaborations

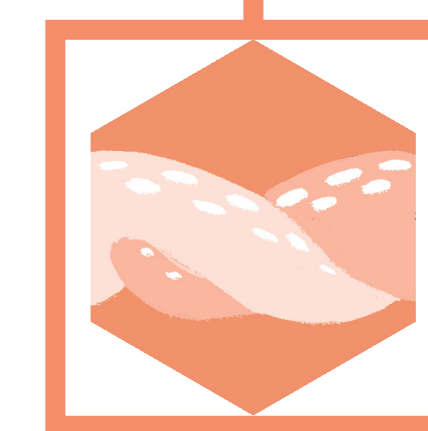

The Centre for Unusual Collaborations (CUCo) brings together and supports mid-career academics in unusual inter- and transdisciplinary collaborations, serving as a breeding ground for breakthrough research to address the most pressing challenges of the age.

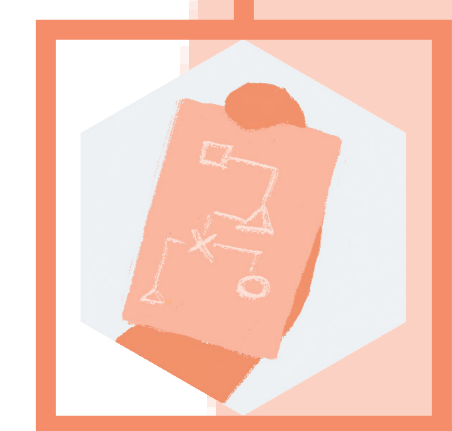

A space to find support for unusual inter- and transdisciplinary research

A hub for training and education on competences for collaborations across boundaries

A lab to understand and learn about the process of collaboration

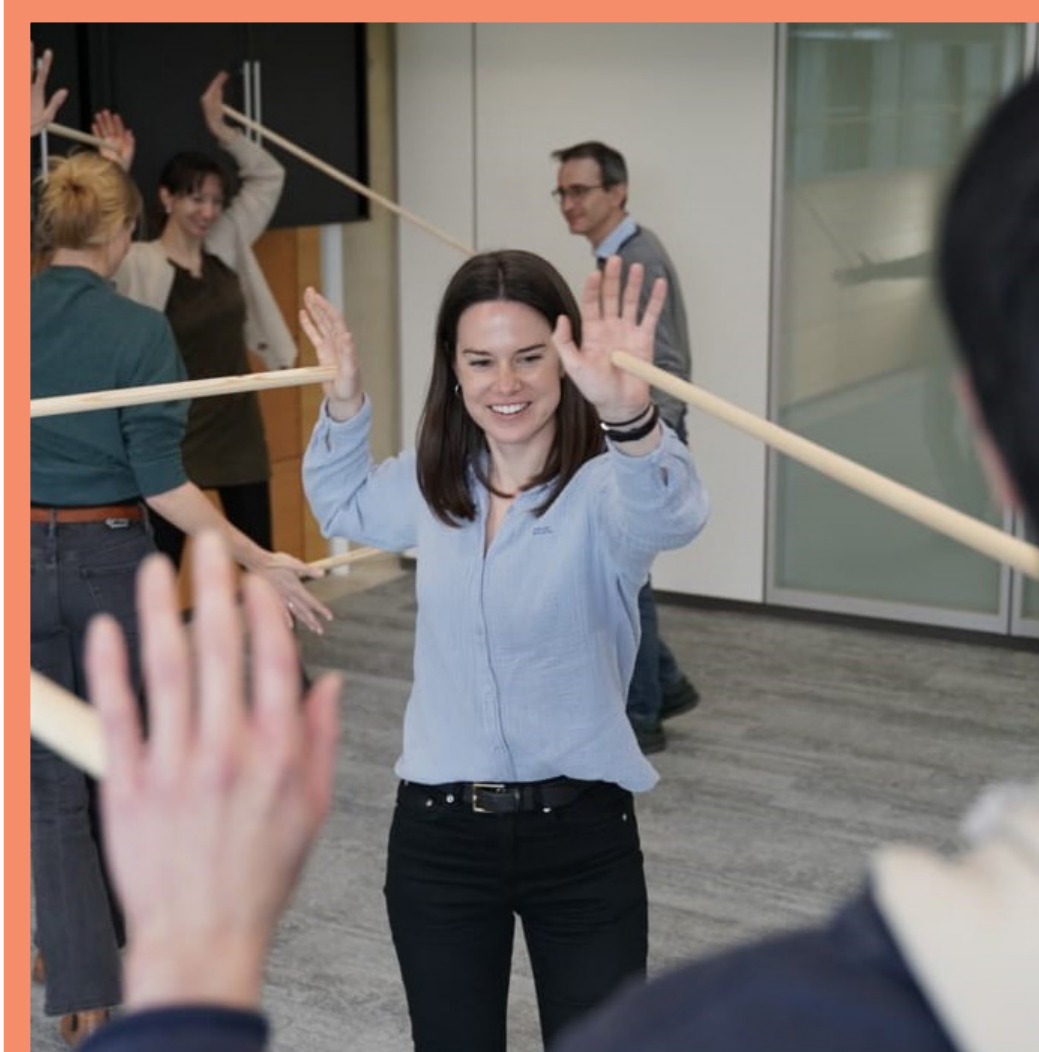

A source of shifts in academic culture and its system

GRANTS

- Spark offers initial financial support (€ 9k) to build a project team and explore the potential of an idea.
- Unusual Collaborations (€ 50-140k) enable outside-the-box inter- and transdisciplinary research that is societally relevant.

TRAINING AND COACHING

- CUCo's training helps strengthen inter- and transdisciplinary competences. Does your organisation also need this? Please contact CUCo.
- A pool of process coaches guides and supports research teams in processes of collaboration.

EXPERTISE AND RESOURCES

- Insights into and lessons about unusual collaborations covering team, topic and process.
- A toolkit with self-guided methods for inter- and transdisciplinary collaborations.
- CUCo's documentary 1+1=3 on the challenges of interdisciplinary collaboration and how to overcome them.
